DENOSA warns against bogus website in its name.

The Democratic Nursing Organisation of South Africa (DENOSA), the largest union organizing nurses in the country has learnt with dismay that there is a group of individuals or an individual running a bogus website under our name (DENOSA).

The bogus website is www.denosa.co.za and nurses are being promised loans and many other manufactured services.

We wish to place it on record that our legitimate website is www.denosa.org.za and we do not offer any loans to nurses. We call on all nurses to guard against this opportunistic behavior by a specific group of people who are on a mission to rip them off.

We have commenced with our investigation in into this matter and we will not rest until culprits are brought to book!

End
